

Racketball Handicap Cup 2020

The rules are as follows:

1. The black ball must be used in all matches. However if you are a player with a zero or + handicap then you can opt to use the blue ball. This is the choice of the higher (plus handicap) player.
2. Either player can arrange games, please do not think it is the other players responsibility. However if it is not played by the due date the organiser will decide the winner by the toss of a coin.
3. All matches are the best of 3 games. All games are to be played to 15 using American scoring (a point every rally). If the score reaches 14-all then the game is decided by a single point shoot out (not 2 clear points). Your handicap ranking is based on historic performances and league rankings. If both players are with a minus handicap then both rankings are moved down towards zero. If both players are with a plus handicap then both rankings are moved up towards zero (EG: -10 v -8 would = -2 v 0, +3 v +5 = 0 v +2. A minus handicap v a plus handicap stays the same)
4. Continuation of an unfinished match must recommence at the scores at the end of the first session.
5. If you lose your **first match** (regardless of which round) then you will be entered into The Handicap Plate Competition, for those in the First Round you will be entered in the Plate if you lose your first or second match. You must play a match in the Handicap Competition to be eligible to be entered into The Plate Competition.
6. Once your match is concluded please write the winners name into the next round on the Tournament Grid and arrange your next match.
7. It is obligatory to enjoy your matches and have fun.
8. The organiser's decision is final.
